

AH17 Mulch Mat

575gsm

product information

Weed suppressant, soil compaction/erosion, moisture loss and frost can inhibit growth of seeds and saplings.

AH17 retains moisture in arid conditions but allows passage of moisture in damp conditions without compromising the ability to suppress weed growth thereby improving growing conditions without the need for chemical treatment.

Applications:	To improve growing conditions and reduce soil compaction/erosion.
Fibre composition:	Jute on hessian backing
Nominal weight:	575g/m ² (+/- 0.5%)
Nominal thickness:	5.5mm
Dimensions:	50cm x 50cm and 100cm x 100cm
Additional information:	AH17 is 100% biodegradable. Last 2-3 seasons, approximately. Due to varying site conditions, manner of installation and severe weather conditions, this may vary.
Installation:	Robust and easy install. Fix into position using pegs or steel pins. Overlap mat where possible to restrict weed growth.
